

What is the leading cause of death worldwide

- A. Cardiovascular disease
- B. Infectious diseases
- C. Accidents
- D. Cancer

Answer: A. Cardiovascular disease

What is the term for the narrowing of the arteries due to plaque buildup

- A. High blood pressure
- B. Atherosclerosis
- C. Heart attack
- D. Stroke

Answer: B. Atherosclerosis

What is the medical term for a heart attack

- A. Myocardial infarction
- B. Coronary thrombosis
- C. Cardiac arrest
- D. Heart failure

Answer: A. Myocardial infarction

What is the normal range for blood pressure in adults

- A. 110/70 mmHg

- B. 100/60 mmHg
- C. 140/90 mmHg
- D. 120/80 mmHg

Answer: D. 120/80 mmHg

What is the medical term for an irregular heartbeat

- A. Heart murmur
- B. Arrhythmia
- C. Heart attack
- D. Cardiac arrest

Answer: B. Arrhythmia

What is the condition in which the heart muscle becomes enlarged and weakened

- A. Heart attack
- B. High blood pressure
- C. Coronary artery disease
- D. Cardiomyopathy

Answer: D. Cardiomyopathy

What is the term for a rapid and irregular heart rate

- A. Tachycardia
- B. Bradycardia
- C. Arrhythmia
- D. Hypertension

Answer: C. Arrhythmia

What is the term for a blockage in the blood vessels supplying the heart muscle

- A. High blood pressure
- B. Stroke
- C. Heart attack
- D. Coronary artery disease

Answer: D. Coronary artery disease

What is the condition in which the heart's electrical system malfunctions, causing an

- A. Arrhythmia
- B. High blood pressure
- C. Heart failure
- D. Heart attack

Answer: A. Arrhythmia

What is the term for chest pain or discomfort that occurs when the heart muscle does

- A. Heart attack
- B. Stroke
- C. Cardiac arrest
- D. Angina

Answer: D. Angina

What is the term for a condition in which the heart is unable to pump enough blood t

- A. Heart attack
- B. Cardiac arrest
- C. Heart failure
- D. Hypertension

Answer: C. Heart failure

What is the term for a condition in which the heart's valves do not work properly

- A. Valvular heart disease
- B. Heart attack
- C. Cardiac arrest
- D. High blood pressure

Answer: A. Valvular heart disease

What is the term for a condition in which the heart beats too slowly

- A. Heart attack
- B. Arrhythmia
- C. Tachycardia
- D. Bradycardia

Answer: D. Bradycardia

What is the term for a condition in which the heart's chambers become enlarged and

- A. Cardiomyopathy

- B. Arrhythmia
- C. Heart failure
- D. Atherosclerosis

Answer: A. Cardiomyopathy

What is the term for a sudden loss of blood flow to the brain, resulting in a lack of ox

- A. Seizure
- B. Stroke
- C. Heart attack
- D. Fainting

Answer: B. Stroke

What is the term for a condition in which the heart's electrical signals are disorganiz

- A. Bradycardia
- B. Heart attack
- C. Palpitations
- D. Atrial fibrillation

Answer: D. Atrial fibrillation

What is the term for a condition in which the heart's muscle is stiff and does not rela

- A. Cardiac arrest
- B. Atrial fibrillation
- C. Diastolic heart failure
- D. Coronary artery disease

Answer: C. Diastolic heart failure

What is the term for a condition in which the heart's blood vessels become hardened

- A. Heart failure
- B. Myocardial infarction
- C. High blood pressure
- D. Atherosclerosis

Answer: D. Atherosclerosis

What is the term for a condition in which the heart's electrical signals are blocked or

- A. Heartbeat obstruction
- B. Cardiac signal interruption
- C. Heart block
- D. Delayed heart syndrome

Answer: C. Heart block

What is the term for a condition in which the heart's upper chambers quiver instead

- A. Heart quiver
- B. Cardiac tremor
- C. Chamber flutter
- D. Atrial fibrillation

Answer: D. Atrial fibrillation
