

What is the primary function of nerves in the body

- A. Transmitting signals
- B. Regulating body temperature
- C. Supporting muscle movement
- D. Producing hormones

What are the two main types of nerves in the body

- A. External and internal nerves
- B. Sensory and motor nerves
- C. Blood and muscle nerves
- D. Brain and spinal nerves

What is the longest nerve in the human body

- A. Ulnar nerve
- B. Femoral nerve
- C. Radial nerve
- D. Sciatic nerve

What is the term for the protective covering that surrounds some nerves

- A. Protective layer
- B. Nerve coating
- C. Nerve shield
- D. Myelin sheath

What is the name of the nerve that controls the sense of smell

- A. Smell nerve

- B. Nasal nerve
- C. Scent nerve
- D. Olfactory nerve

What is the name of the nerve responsible for controlling the muscles of the face

- A. Spinal nerve
- B. Facial nerve
- C. Sciatic nerve
- D. Optic nerve

What is the name of the nerve responsible for controlling the muscles of the eye

- A. Oculomotor nerve
- B. Sight nerve
- C. Eye nerve
- D. Vision nerve

What is the name of the nerve responsible for controlling the muscles of the tongue

- A. Trigeminal
- B. Facial
- C. Hypoglossal
- D. Vagus

What is the name of the nerve responsible for controlling the muscles of the heart

- A. Vagus nerve
- B. Heart nerve
- C. Pulmonary nerve
- D. Cardiac nerve

What is the name of the nerve responsible for controlling the muscles of the diaphragm?

- A. Vagus nerve
- B. Phrenic nerve
- C. Optic nerve
- D. Sciatic nerve

What is the name of the nerve responsible for controlling the muscles of the stomach?

- A. Phrenic nerve
- B. Vagus nerve
- C. Spinal nerve
- D. Sciatic nerve

What is the name of the nerve responsible for controlling the muscles of the intestine?

- A. Vagus nerve
- B. Facial nerve
- C. Sciatic nerve
- D. Spinal nerve

What is the name of the nerve responsible for controlling the muscles of the bladder?

- A. Pudendal nerve
- B. Sciatic nerve
- C. Facial nerve
- D. Vagus nerve

What is the name of the nerve responsible for controlling the muscles of the reproductive system?

- A. Pudendal nerve

- B. Olfactory nerve
- C. Sciatic nerve
- D. Vagus nerve

What is the term for a condition in which nerves become damaged or dysfunctional

- A. Neurosis
- B. Neurogenesis
- C. Neurology
- D. Neuropathy

What is the name for the network of nerves that extends throughout the body

- A. Nervous system
- B. Blood vessels
- C. Respiratory system
- D. Digestive system

What is the term for a group of nerves that work together to perform a specific function

- A. Nerve pathway
- B. Nerve gang
- C. Nerve cluster
- D. Nerve team

What is the name of the nerve responsible for transmitting sensory information from

- A. Ulnar nerve
- B. Sciatic nerve
- C. Radial nerve
- D. Median nerve

What is the name of the nerve responsible for transmitting motor signals from the brain to the muscles?

- A. Ulnar nerve
- B. Sciatic nerve
- C. Radial nerve
- D. Median nerve

What is the term for the process by which nerves communicate with each other and the brain?

- A. Neurotransmission
- B. Neurosynchronization
- C. Neuroconnection
- D. Neurocommunication
