

What is the largest bone in the skull

- A. maxilla
- B. frontal bone
- C. mandible
- D. sphenoid bone

What bone forms the forehead

- A. Occipital bone
- B. Parietal bone
- C. Frontal bone
- D. Temporal bone

Which bone houses the pituitary gland

- A. Frontal bone
- B. Temporal bone
- C. Sphenoid bone
- D. Occipital bone

What bone makes up the lower jaw

- A. Mandible
- B. Scapula
- C. Radius
- D. Femur

What bone forms the back and base of the skull

- A. Temporal bone

- B. Parietal bone
- C. Occipital bone
- D. Frontal bone

What are the two bones that make up the sides of the skull

- A. Temporal bones
- B. Mandible
- C. Clavicle
- D. Occipital bone

Which bone contains the nasal cavity

- A. Mandible
- B. Ethmoid bone
- C. Scapula
- D. Femur

What bone forms the cheekbones

- A. Mandible
- B. Zygomatic bone
- C. Frontal bone
- D. Maxilla

What bone forms the roof of the mouth

- A. Temporal bone
- B. Mandible
- C. Maxilla
- D. Palatine bone

Which bone forms the back of the eye socket

- A. Sphenoid bone
- B. Temporal bone
- C. Maxilla bone
- D. Zygomatic bone

What bone forms the bridge of the nose

- A. Zygomatic bone
- B. Frontal bone
- C. Nasal bone
- D. Mandible

What is the only movable bone in the skull

- A. Mandible
- B. Maxilla
- C. Frontal bone
- D. Sphenoid bone

What bone forms the back of the head and neck

- A. Temporal bone
- B. Parietal bone
- C. Occipital bone
- D. Frontal bone

Which bone contains the inner ear structures

- A. Femur

- B. Temporal bone
- C. Clavicle
- D. Mandible

What bone forms the sides and base of the skull

- A. Femur
- B. Vertebra
- C. Temporal bone
- D. Rib

What bone forms the upper jaw

- A. Maxilla
- B. Zygomatic bone
- C. Frontal bone
- D. Mandible

Which bone forms the lower part of the eye socket

- A. Zygomatic bone
- B. Maxilla
- C. Frontal bone
- D. Mandible

What bone forms the top of the head

- A. Frontal bone
- B. Clavicle
- C. Femur
- D. Mandible

What bone forms the bottom of the skull

- A. Clavicle
- B. Scapula
- C. Femur
- D. Mandible

Which bone contains the foramen magnum

- A. Occipital bone
- B. Femur
- C. Tibia
- D. Radius
